CAREER OBJECTIVE

Aspiring Information Science student with a solid foundation in programming, data structures, and algorithms. Proficient in developing scalable and efficient software solutions using modern technologies. Demonstrates a strong ability to learn quickly and adapt, with a passion for problem-solving and continuous skill development. Actively seeking opportunities to contribute to impactful software projects in a dynamic and innovative tech environment.

EDUCATION QUALIFICATION

- **Bachelor of Engineering – Information Science and Engineering**
CMR Institute of Technology, AECS Layout, Bengaluru
8.53, 2026 (Pursuing)
- **2nd PUC– Science (STATE)**
Expert PU College, Valachil, Mangaluru
96.16%, 2022
- **10th Standard (SSLC)**
PoornaPrajna Education Centre, Bengaluru
96.8%, 2020

TECHNICAL SKILLS

Languages: Python, Java, C

Web Technologies: HTML, CSS, JavaScript, TypeScript, React.js

Databases: SQL (MySQL, SQL Lite), NoSQL (MongoDB)

Version Control: Git, GitHub

Cloud & Hosting Services: AWS (S3, EC2, VPC), Render, Netlify, Vercel

UI/UX Design Framework: Bootstrap, Tailwind CSS, Material UI

Developer Tools & Software: VS Code, PowerBI, Tableau, LaTeX, MS Excel

PROJECTS

- **Title: AgriHelp – AI & ML Powered Crop Recommendation System(Major Project)**
Description: AgriHelp is an AI-driven web application designed to assist farmers in making data-informed agricultural decisions. The system recommends the most suitable crops for a given field based on soil parameters, environmental conditions, and market pricing. It also detects plant diseases from leaf images and suggests appropriate fertilizers. Using integrated AI models, the platform provides explanations for each recommendation and updates real-time crop price insights, ensuring smarter and more profitable farming decisions.
Tech Stack: Python, Scikit-learn, TensorFlow, Django, Clerk, Real-time price and weather APIs
- **Title: VedaVerse -GEN-AI Web App**
Description: A personalized AI-assisted learning web app built with Django, integrating OpenAI and Gemini AI for smart content delivery. Users can upload PDFs for interactive learning and quizzing, powered by Gemini AI's OCR and sketchbook features. OpenAI's RAG (Retrieval-Augmented Generation) generates custom explanations and flowcharts from documents. The frontend uses HTML and CSS for a clean, intuitive user experience.
Tech Stack: Django, Open AI, Gemini AI, HTML, CSS
- **Title: AI-Powered Interior Design WebApp**
Description: Developed an AI-powered interior room redesign web application that enables users to visualize and customize room designs based on their preferences. Integrated advanced AI models to generate design suggestions and visualizations. Implemented secure user authentication, payment processing, and real-time database interactions. The frontend uses HTML and CSS for a clean, intuitive user experience.
Tech Stack: Reactjs, Nextjs, Clerk, DrizzleORM, NeonDatabase, firebase, ReplicateAPI, PayPalReact SDK.

- **Title: Message Encryption Technique with Two Layers of Security Using Image Steganography**

Description: A code was developed to securely encrypt a message and embed it within an image. This encrypted image is further concealed within another image, offering an additional layer of protection. The approach ensures confidentiality and makes the data indistinguishable from normal images, enhancing security during transmission.

Tech Stack: Python, Object-Oriented Programming(OOP), Cryptography Libraries, PIL(Python Imaging Library).

CO-CURRICULAR & EXTRA CURRICULAR ACTIVITIES

Patents & Copyrights:

- Filled a patent on a design “Ergonomic Glove”, 2025 (on-going)

Hackathons:

- Participated in GEN-AI HackFest by HappyFox (Finalist-2025).
- Participated in Amazon Smbhav Hackathon 2024 by Amazon.
- Presented in Patent Ideathon 2025.
- Participated in Manthan 2025, a Business Plan Presentation Competition organized by CMRIT.
- Participated in Synthack 2025 by DSATM.
- Participated in Road Safety Hackathon 2025 by HOAI India,

Online Courses & Certifications:

- Completed a certified course “Artificial Intelligence with Python” from Infosys SpringBoard.
- Completed a certified course “DevOps: More than Just Dev & Ops” from Infosys SpringBoard.
- Completed a certified course “Complete Bootstrap in Python”- Udemy.
- Completed certified course on Computer Networks and Security from Infosys Spring Board.

Seminar & Workshops:

- Presented a seminar on AWS CloudNine and CloudShell at department level
- Attended a workshop on Patent Registration
- Conducted 10+ flipped classroom sessions to teach and mentor fellow students.

Sports:

- Participated in the Inter department Football tournament.

ACHIEVEMENTS

- 1st place in a technical exhibition for the project “Digital Distance Meter Using Arduino” (2023).
- Received scholarship of academic excellence for consistently achieving commendable grades (2022-2025).
- Finalist in Synthack by DSATM (2025).
- Finalist in GENAI-Hackfest by HappyFox (2025).
- Pratibha Puraskara Award (2020,2022).

PERSONAL DETAILS

Date of Birth : 21-05-2004
Gender : Male
Nationality : INDIAN
Linguistic Competency : English, Kannada, Hindi
Hobbies : Gaming, Photography, Animation (Beginner)
