CAREER OBJECTIVE

As an Information Science and Engineering undergraduate with a solid foundation in software development, I'm driven to excel in a Software Development Engineer role. I am eager to apply my coding and problem-solving skills to deliver meaningful, data-driven solutions, contribute effectively to real-world projects, and grow under the mentorship of industry professionals.

EDUCATION QUALIFICATION

- **Bachelor of Engineering – Information Science and Engineering**
CMR Institute of Technology, AECS Layout, Bengaluru
8.53, 2026 (Pursuing)
- **12th Grade- PCMB**
Expert PU College, Valachil, Mangaluru
96.16%, 2022
- **10th Standard**
PoornaPrajna Education Centre, Bengaluru
96.8%, 2020

TECHNICAL SKILLS

Languages: Python, Java, C

Web Technologies: HTML, CSS, JavaScript, Node.js

Frameworks/Libraries: React.js, Express.js

Databases: MySQL, MongoDB, PostgreSQL

Software & Tools: Power BI, Tableau, Excel, VS Code, LaTeX, Jupyter Notebook

Version Control: Git, GitHub

PROJECTS

- **Title:** AgriHelp – AI & ML Powered Crop Recommendation System (Major Project)
Description: AgriHelp is an AI-driven web application designed to assist farmers in making data-informed agricultural decisions. The system recommends the most suitable crops for a given field based on soil parameters, environmental conditions, and market pricing. It also detects plant diseases from leaf images and suggests appropriate fertilizers. Using integrated AI models, the platform provides explanations for each recommendation and updates real-time crop price insights, ensuring smarter and more profitable farming decisions.
Tech Stack: Python, Scikit-learn, TensorFlow, Django, Clerk, Real-time price and weather APIs
- **Title:** VedaVerse
Description: A personalized AI-assisted learning web app built with Django, integrating OpenAI and Gemini AI for smart content delivery. Users can upload PDFs for interactive learning and quizzing, powered by Gemini AI's OCR and sketchbook features. OpenAI's RAG (Retrieval-Augmented Generation) generates custom explanations and flowcharts from documents. The frontend uses HTML and CSS for a clean, intuitive user experience.
Tech Stack: Django, Open AI, Gemini AI, HTML, CSS
- **Title:** AI-Powered Interior Design WebApp
Description: Developed an AI-powered interior room redesign web application that enables users to visualize and customize room designs based on their preferences. Integrated advanced AI models to generate design

suggestions and visualizations. Implemented secure user authentication, payment processing, and real-time database interactions. The frontend uses HTML and CSS for a clean, intuitive user experience.

Tech Stack: Reactjs, Nextjs, Clerk, DrizzleORM, NeonDatabase, firebase, ReplicateAPI, PayPalReact SDK.

INTERNSHIP (Dec 2025- Jan 2026)

Role: Generative AI Intern

Company: Daacoworks Technologies Private Limited

Work:

- Built an AI-powered CMMS backend using Node.js, Express, Open Ai, and Qdrant to answer maintenance queries via semantic search.
 - Implemented a RAG pipeline for accurate, context-aware responses over work requests and work orders.
 - Designed a decoupled ingestion and query architecture to ensure consistent, snapshot-based answers.
 - Exposed secure REST API tested with Postman for chatbot integration
-

CO-CURRICULAR & EXTRA CURRICULAR ACTIVITIES

Patents & Copyrights:

- Filled a patent on a design “Ergonomic Glove”, 2025 (on-going)

Hackathons:

- Participated in GEN-AI HackFest by HappyFox (Finalist-2025).
- Presented in Patent Ideathon 2025.
- Participated in Manthan 2025, a Business Plan Presentation Competition organized by CMRIT.
- Participated in Synthack 2025 by DSATM.

Online Courses & Certifications:

- Completed a certified course “Artificial Intelligence with Python” from Infosys SpringBoard.
- Completed a certified course “Complete Bootstrap in Python”- Udemy.
- Completed certified course on Computer Networks and Security from Infosys Spring Board.

Seminar & Workshops:

- Presented a seminar on AWS CloudNine and CloudShell at department level
- Attended a workshop on Patent Registration
- Conducted 10+ flipped classroom sessions to teach and mentor fellow students.

Sports:

- Participated in the Inter department Football tournament.
-

ACHIEVEMENTS

- 1st place in a technical exhibition for the project “Digital Distance Meter Using Arduino” (2023).
 - Received scholarship of academic excellence for consistently achieving commendable grades (2022-2025).
 - Finalist in Synthack by DSATM (2025).
 - Pratibha Puraskara Award (2020,2022).
-

PUBLICATION

“Smart Crop Recommendation Systems Leveraging AI and Machine Learning Techniques” International Journal of Research Publication and Reviews, Vol 6, Issue 12, pp 6385-6391 December, 2025

PERSONAL DETAILS

Date of Birth	: 21-05-2004
Gender	: Male
Nationality	: INDIAN
Linguistic Competency	: English, Kannada, Hindi
Hobbies	: Gaming, Photography, Piano (Beginner)
